6 Bedroom, 3.00 Bathroom, 1,980 sqft

Residential on 0.17 Acres

Sundance, Calgary, Alberta

Discover this exceptionally rare 6-bedroom split-level home, offering over 2500 ft.Â² of total living space in the desirable, family-friendly community of Sundance. With an additional 568 ft.Â² of crawlspace, storage will never be an issue in this home

Originally constructed by Keith Homes â€” renowned for their quality and craftsmanship â€” this residence is filled with thoughtful updates and modern conveniences. All windows have been upgraded to energy-efficient triple pane, while a new high-impact class 4 shingle roof was installed in 2023 alongside a new hot water tank. The home is kept comfortable with a new air conditioning system (2024) and features newer GE Slate appliances in the kitchen.

One of the most desirable aspects of this property is its rare pie-shaped lot. The oversized, double garage is gas heated, wired with its own electrical panel, and even includes a 220V connection â€” perfect for a workshop. There is a 30/50-amp breaker further adding versatility, allowing you to store a boat, additional vehicles, or a massive RV, while retaining plenty of green space in your rear yard.

The exterior is finished in rich cedar siding, restained in 2023, adding warmth and character to the homeâ€™s curb appeal. Ideally located just a block away from a

school, with nearby lake access and convenient routes to major roads and amenities, this is a wonderful opportunity for a growing family in a well-established community.
